

THERMALWELD[®] PLUS

Picture window also available.

polariswindows.com

DOUBLE HUNG

Extrusions are fusion welded at every corner to create seamless and strong windows. Top & bottom sash tilt inside for safe cleaning with recessed tilt latches. Double sash locks on windows 26" wide and over. Standard half screen, optional full screen.

GLIDER • 2+3 LITE

Windows operate smoothly with brass rollers. Sash lifts out for safe and easy cleaning inside the home. Standard operable panel screen[s]; 2 lite - half screen | 3 lite - active panel screen[s]. Optional full screen.

AWNING

Handle folds into operator cover of awning. Awning stop air infiltration with triple seal.

CASEMENT

Sash cranks fold into base for a clean look and opens fully with just a few turns. Windows are triple sealed against the weather and can be safely cleaned inside the home. Hinged side of sash slides away from frame when fully opened. Reinforcements in sash provide extra security.

DOUBLE HUNG & GLIDER FEATURES

AWNING & CASEMENT FEATURES

True sloped sill for positive water drain off, no weep holes to clog.

Welded Frame & Sash Corners are solid and free from gaps.

Sash Limit Locks allow secure partial opening.

Strong, Extruded Aluminum Screen Frame; standard fiberglass mesh; optional aluminum or pet mesh.

Heavy Duty Sash Lock & Keeper for secure, air tight lock.

Continuous Over / Under Interlock & Weather-Stripping prevents air infiltration across entire meeting rail.

Heavy duty awning mechanism.

Heavy duty casement mechanism.

Corner Drive hardware optional.

WINDOW ADD-ON FEATURES

Rigid Thermal Reinforcements are advanced fiberglass reinforced resin inserts, designed to slide easily into window chambers for greater support and insulation.

Insulating Green Foam Increases energy savings.

Sealant Effectiveness & Gas Retention
The sealant provides the moisture vapor barrier for the I.G. unit. The longer the transmission path, the slower the rate that moisture will travel into the unit through the seal. Intercept® Stainless is impervious to gas transmission, improving gas retention and maximizing the insulation value of your window over time. Intercept® Stainless offers one of the best transmission paths to maximize window performance.

energySMART®glass is standard in every Polaris®window.

We also offer many high-performance energySMART upgrades. Low-E coating reduces ultra violet light damage and heat gain. Triple pane IG units have sound deadening properties. Argon gas fill between panes further reduces temperature transfer.

Ask about ENERGY STAR qualified upgrades.

BAY & BOW

BAY WINDOW
Features a center picture window flanked by casement or double hung windows. Two of these operable windows can replace the picture window.

Choose between:
DOUBLE HUNG OR CASEMENT
for your Bay & Bow Windows

**Optional DuoTilt lock on Double Hung available. All other features are standard.*

BOW WINDOW
Picture windows in this system are flanked by two operable windows. Windows in a bow are all the same size.

WINDOW/ROOF FEATURES

ROOF OPTIONS

Prefabricated roof system is custom built for your home. Installation time is greatly reduced.

HIP STYLE ROOF

Add metal roof or shingles to match your home's existing roof.

CONCAVE METAL ROOF

This elegant architectural detail is stunning in copper.

PAINTED ALUMINUM ROOF

Hip or Concave, 26 color choices. Ask for a Una-Clad™ color selector.

COPPER ROOF

Finish maintains the polished, shiny surface.

INTERIOR OPTIONS

Wood Oak or Birch construction.

FINISHES

- Interior wood surfaces stained and sealed with durable lacquer clear coat. Stain matches Polaris® woodgrain laminates when applied to Oak Only.
- Paint in white or beige.

- Maintenance free, scratch resistant plastic laminate in white or beige.
- Seat only or seat, head and side jambs. Touch-up stain or paint included.

INTERNAL PVC PANNING SYSTEM

Vacuum Formed PVC Panning Profiles, Left & Right styles. Profiles include a variety of Extension Legs creating an Interior Gutter System.

Panning System acts as an Internal Weatherization Barrier. Prevents Water Infiltration from reaching any Bay or Bow Window Wood Components.

RECESSED LIGHTING

Polished brass, brushed nickel or white 1, 2 or 3 clear lights low voltage halogen bulb[s] & transformer included
